SEAHAWK MOSAIC

Established in 2001, SEAHAWK mosaic brand has been highly praised by a wide range of consumers with good cultural taste for its unique and creative design, high end customized services, superb craftsmanship, matching spatial solutions and superior quality.

We adhere to the original value of the works and integrate the humanities, art, craftsmen, nature life and aesthetics into them. We perform new interpretations in the present time with the simplest mosaic symbols and deposit the creation, breakthrough and reshaping of the crossing span from the boundaries of the new visual space...

We insist on the market-oriented policy and take reform and innovation as our driving forces. We integrate the online and offline resources and carry out interactivities and further expand our global market share—we not only have hundreds of fixed-point service providers in major cities across China. But we also exported products to more than 100 countries and regions including Europe, America and the Middle East, leading the national brands into the international market.

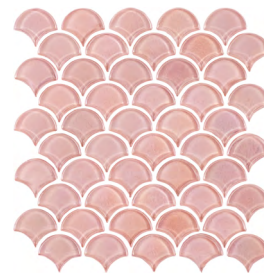

In the future, SEAHAWK mosaic brand will implement its higher-taste concept into its brand construction, exploit the market with deeper and further promotion. It is committed to allowing more and more people to experience the charm of mosaic and feel the artistic life.
